

A Chess Game:

Artificial Intelligence vs. Natural Intelligence in Cataract Surgery

Join the ZEISS Symposium

Chair Christina Grupcheva is addressing the following questions:

- How to improve the workflow, and keep the quality?
- Is it possible to improve the predictability while maintaining precision?
- Can patient's and surgeon's quality of life be improved by the technology?
- Will the latest technology change the way surgeons operate and get trained?

Save the date

Sunday, 8 September 2024

1:00 – 2:00 PM CEST

Room: 8.0 C

Chair:

Christina Grupcheva
Bulgaria

Experts:

Zoraida del Campo
Spain

Nino Hirnschall
Austria

Liem Trinh
France

David Beckers
