

EuroTimes Satellite Symposium

Vision Excellence: Optimizing Outcomes in Presbyopia and Tolerance for Refractive Results

Johnson & Johnson

Join the EuroTimes Satellite Symposium to discover the clinical benefits and real-world outcomes of the **TECNIS PureSee™** EDOF IOL. Gain insights into its superior quality of vision, low dysphotopsia profile, and cutting-edge advancements in refractive cataract surgery and presbyopia management.

Moderation:

Prof. Beatrice Cochener-Lamard (France)

Presenters:

- Dr. Francesco Carones (Italy)
- Dr. José Manuel Diez Del Corral (Spain)
- Dr. Bogdan Galan (Romania)
- Dr. Nic Reus (Netherlands)
- Dr. Pavol Veselý (Slovakia)

Agenda:

- Welcome and introduction | **Prof. Beatrice Cochener-Lamard**
- Opening session | **Prof. Beatrice Cochener-Lamard**
Addressing an unmet need in vision correction
Positioning of the lens in the market segment
- Session 1 | **Dr. Nic Reus**
The significance of quality and contrast in PCIOL technology
- Session 2 | **Dr. Bogdan Galan**
Understanding visual acuity and the defocus curve of the **TECNIS PureSee™** IOL
- Session 3: Expert panel discussion | **Dr. Carones, Dr. Diez Del Corral, Dr. Veselý**
Patient journey, patient education, and positioning of the **TECNIS Eyhance™** IOL and **TECNIS PureSee™** IOL
Suitability criteria, diagnostics, and importance of astigmatism management for quality of vision
Exploring monovision and various refractive techniques with extended depth of focus lenses, including data on outcomes
- Closing Remarks | **Prof. Beatrice Cochener-Lamard**

Prof. Beatrice Cochener

Dr. Francesco Carones

Dr. Bogdan Galan

Dr. José Manuel Diez Del Corral

Dr. Nic Reus

Dr. Pavol Veselý

By participating, you'll be equipped with the latest insights and practical knowledge to improve patient outcomes and stay at the forefront of vision care innovation.

Date:

Saturday, September 7

Time:

13:00 - 14:00

Location:

Room 8.0.B

Conference Centre, Fira de Barcelona
